

Before the  
FEDERAL COMMUNICATIONS COMMISSION  
Washington, DC, 20554

In the Matter of                    )  
Creation of a Low                )  
Power Radio                    )  
Service                            )

MB Docket No. 99-25

My name is Robert Perry and I strongly support any actions the Federal Communications Commission can take to expand and support the Low Power FM radio service.

The FCC should make every effort to protect low power FM (LPFM) and the community-oriented content it provides. Unlike the consolidated commercial radio landscape, LPFM stations provide quality local programming and enhance the diversity of local voices available to their communities.

I listen to a station that is an LPFM where I find music and info I can't find elsewhere on the dial. Please make sure that this sort of grassroots radio is available everywhere!

Thank you.
